

## family

---

**Syntax** family ethernet-switching {  
    filter input *filter-name*  
    filter output *filter-name*  
    native-vlan-id *vlan-id*;  
    port-mode *mode*;  
    vlan {  
        [ (*names* | *vlan-ids*) ]; [ (*names* | *vlan-ids*) ];  
    }  
}

**Hierarchy Level** [edit interfaces *ge-chassis/slot/port* unit *logical-unit-number*]

**Release Information** Statement introduced in JUNOS Release 9.0 for EX-series switches.

**Description** Configure protocol family information for the logical interface.

**Default** You must configure a logical interface to be able to use the physical device.

**Options** ethernet-switching—Ethernet switch protocol family.

The remaining statements are explained separately.

**Required Privilege Level** interface—To view this statement in the configuration.  
interface-control—To add this statement to the configuration.
