[edit system services dhcp-local-server group *group-name*]

Release Information Statement introduced in JUNOS Release 9.2.

Description Override the default configuration settings for the extended DHCP local server. Specifying the **overrides** statement with no subordinate statements removes all DHCP local server overrides at that hierarchy level.

To override global DHCP local server configuration options, include the **overrides** statement and its subordinate statements at the [edit system services dhcp-local-server] hierarchy level. To override DHCP relay agent configuration options for a named group of interfaces, include the statements at the [edit system services dhcp-local-server group *group-name*] hierarchy level.

The statements are explained separately.

Required Privilege Level system—To view this statement in the configuration.
system-control—To add this statement to the configuration.
