

Displaying Profiler Database Information (NSM Procedure)

Purpose Data discovered by Profiler is stored in a database located on the NSM GUI server. Use the steps in this procedure to display information about the Profiler database.

Action To display Profiler database information:

1. In the NSM Navigation tree select **Investigate > Security Monitor > Profiler**.
2. Click the **Show DB Information** icon in the upper right corner to view specific details about the Profiler database, including the database size.
