

AC Power Supply Electrical Specifications for the JCS1200 Platform

Table 1 lists the AC power system and power supply electrical specifications.

Table 1: AC Power Electrical Specifications for the JCS1200 Platform

Item	Specification
Power System	
AC input voltage	Operating range: 200 to 240 VAC
AC input line frequency	50 to 60 Hz (nominal)
AC system current rating	32 A @ 220 VAC (16 A per inlet)
AC system input power	8000 W
Power Supply	
Maximum output power	2880 W
AC input line frequency	50 to 60 Hz (nominal)
