

# About This Guide

This *Policy and QoS Configuration Guide* provides the information you need to configure policy management and quality of service (QoS) on your ERX system.

**Note:** If the information in the *ERX Release Notes* differs from the information in this guide, follow the *ERX Release Notes*.

Your ERX system is shipped with the latest system software installed. If you need to install a future release or reinstall the system software, refer to the procedures in the *ERX Installation and User Guide, Appendix E, Installing ERX System Software*.

## ERX Edge Routers

---

Four models of ERX edge router are available:

- ERX-1440 system
- ERX-1410 system
- ERX-705 system
- ERX-700 system

All models use the same software. For information about the differences between the models, see *ERX Installation and User Guide, Chapter 1, ERX System Overview*.

In the ERX documentation, the term ERX-1400 series refers to both the ERX-1440 system and the ERX-1410 system. Similarly, the term ERX-700 series refers to both the ERX-705 system and the ERX-700 system. The terms ERX-1440 system, ERX-1410 system, ERX-705 system, and ERX-700 system refer to the specific models.

## Audience

This guide is intended for experienced system and network specialists who will configure a Juniper Networks ERX system in an Internet access environment.

## Conventions

Table 1, Table 2, and Table 3 list all the conventions used in the ERX documentation. Table 1 defines notice icons. Table 2 shows text conventions used throughout the book, except for command syntax. Table 3 provides command syntax conventions used primarily in the *ERX Command Reference Guide*. For more information about command syntax, see *ERX System Basics Configuration Guide, Chapter 2, Command Line Interface*.

**Table 1** Notice icons

| Icon  | Meaning            | Description  |
|---|--------------------|--|
|  | Informational note | Indicates important features or instructions.                      |
|  | Caution            | Indicates that you may risk losing data or damaging your hardware. |
|  | Warning            | Alerts you to the risk of personal injury.                         |

**Table 2** Text conventions (except for command syntax)

| Convention   | Description  | Examples  |
|--|--|---|
| <b>Bold typeface</b>                                     | Represents commands and keywords in text.                      | <ul style="list-style-type: none"> <li>Command example: Issue the <b>clock source</b> command.</li> <li>Keyword example: Specify the keyword <b>exp-msg</b>.</li> </ul> |
| <b>Bold Courier typeface</b>                             | Represents text that the user must type.                       | <b>user input</b>   |
| Key name in angle brackets                               | Indicates the name of a key on the keyboard.                   | Press <Enter>.  |
| Key names linked with a plus sign (+) in angle brackets. | Indicates that you must press two or more keys simultaneously. | Press <Ctrl+B>.   |
| Plain Courier typeface                                   | Represents information as displayed on your terminal's screen. | <pre>host1#show ip ospf 2 Routing Process OSPF 2 with Router ID 5.5.0.250 Router is an Area Border Router (ABR)</pre>   |

**Table 2** Text conventions (except for command syntax) (continued)

| Convention     | Description  | Examples   |
|----------------|--|--|
| <i>Italics</i> | <ul style="list-style-type: none"> <li>Emphasize words.</li> <li>Identify variables.</li> <li>Identify chapter, appendix, and book names.</li> </ul> | <ul style="list-style-type: none"> <li>There are two levels of access, <i>user</i> and <i>privileged</i>.</li> <li><i>clusterId</i>, <i>ipAddress</i>.</li> <li><i>Appendix A, System Specifications</i>.</li> </ul> |

**Table 3** Syntax conventions in *Command Reference Guide*

| Convention                      | Description   | Examples  |
|---------------------------------|---|---|
| Words in plain text             | Represent keywords.   | terminal length   |
| Words in italics                | Represent variables.  | <i>mask</i> , <i>accessListName</i>                         |
| Words separated by the   symbol | Represent a choice to select one keyword or variable to the left or right of this symbol. (The keyword or variable may be either optional or required.) | diagnostic   line   |
| Words enclosed in [ brackets ]  | Represent optional keywords or variables.   | [ internal   external ]                                     |
| Words enclosed in [ brackets ]* | Represent optional keywords or variables that can be entered more than once.  | [ level1   level2   l1 ]*                                   |
| Words enclosed in { braces }    | Represent required keywords or variables.   | { permit   deny } { in   out }<br>{ clusterId   ipAddress } |

## Documentation

---

The *ERX Installation Quick Start* poster is shipped in the box with all new systems. This poster provides the basic procedures to help you get the system up and running quickly.

The document set contains the following books and online resources:

- *ERX Installation and User Guide* – Provides the necessary procedures for getting your system operational, including information on installing, cabling, powering up, configuring your system for management access, and general troubleshooting.
- *ERX System Basics Configuration Guide* – Describes planning and configuring your network, managing the system, passwords, and security, and configuring the system clock and virtual routers.
- *ERX Physical and Link Layers Configuration Guide* – Describes configuring physical and link layer interfaces.

- *ERX Routing Protocols Configuration Guide, Vol. 1* - Provides information about configuring routing policy and configuring IP, IP routing, and IP security.
- *ERX Routing Protocols Configuration Guide, Vol. 2* – Describes BGP Routing, MPLS, and related VPNs.
- *ERX Policy and QoS Configuration Guide* - Provides information about configuring policy management and quality of service (QoS).
- *ERX Broadband Access Configuration Guide* – Provides information about configuring remote access.
- *ERX Command Reference Guide* – Contains important information about all system commands implemented in the system software. Use to look up command descriptions, command syntax, a command's related mode, or a description of a command's parameters. It is intended to be used with the *ERX Configuration Guides*.
- *ERX Product Overview Guide* – Gives a thorough overview of the system from a software and hardware perspective. It provides illustrations and configuration examples that present the “big picture.”
- *ERX Release Notes* – Contains information about features, changes, known problems, and limitations. Provides final information that did not make it into the documentation.
- *ERX Online Documentation CD* – Provides an online version of this guide and the documents listed above. The online documents contain numerous links between guides, giving easy access to a vast amount of technical information.

### Abbreviations

A complete list of abbreviations used in this document set, along with their spelled-out terms, is provided in the *ERX System Basics Configuration Guide, Appendix A, Abbreviations and Acronyms*.

### Using the Online Documentation CD

---

To use the Online Documentation CD:

- 1 Place the Online Documentation CD in your CD drive.
- 2 Follow the instructions located on the inside cover of your CD jewel case to install Acrobat Reader.
- 3 From the *Documentation* folder on the CD, open the *CDtips.pdf* file for information on using Adobe Acrobat Reader.

- 4 From the *Documentation* folder on the CD, open the *Welcome.pdf* file for access to the documentation set.

## Comments About the Documentation

---

We encourage you to provide feedback, comments, and suggestions so that we can improve the documentation to better meet your needs. Please e-mail your comments to:

- [techpubs-comments@juniper.net](mailto:techpubs-comments@juniper.net)

Along with your comments, be sure to indicate:

- Document name
- Document part number
- Page number
