Known Issues/Limitations NOT Fixed in ESAP 1.4.8:

- 1 . Kaspersky 2009 AntiVirus is not getting detected inside SVW. (416381)
- 2 . Microsoft Firewall XP SP2+ not getting detected under a specific configuration. (394523)
- 3 . The spyware check for Symantec Endpoint Protection 11.x will pass even if "Proactive Threat Protection" is disabled. (407796)
- 4 . HC Firewall policy passes for Symantec Endpoint Protection 11.x even after executing 'smc -stop' command. (429997)
- 5 . ESET NOD32 3.x is not getting detected under a specific scenario. (428404)
- 6 . FS RTP check for F-Secure AV (5.x) fails. (430515)
- 7 . Norton Antivirus 10.x does not get detected. (435099)
- 8 . Rising Internet Security 2009 (21.x) is not supported. (437022)
- 9 . Last Scan Time for Symantec Antivirus 10.x is not returning valid values. (436248)
- 10 . AV Check fails for Norton 360 v2 with UAC Enabled on Vista. (386088)
- 11 . The Anti-Virus Check for Norton Internet Security 2009 (v16) and Norton AntiVirus 2009 will not be correct on a non-XP-32bit machine with security centre disabled.

Workaround:

If the security center service is disabled and you are on a Non-XP 32 bit machine it is required that the "Early Load" of the Auto-Protect feature be enabled. This feature can be enabled by opening the AntiVirus or Internet Security Options, selecting the Real-Time Protection tab, and under Auto-Protect, you will find "Early Load".

Known Issues/Limitations Fixed in ESAP 1.4.8:

1. Dr Web 5.0 is now supported. (422541)
2. Rising Antivirus 2009 (21.x) is now supported. (424054)
3. FSRTTP Check fails now passes on Norton AV 2008 (15.x) when “Load Auto protect on Startup” is unchecked. (408915)
4. McAfee VS Enterprise GetLastFullSystemScan() returns correct values with different Unicode and non-unicode settings. (418897)
5. Norman Virus Control 6.x is now supported. (424188)
6. Norman Virus Control 5.99 is now getting detected. (427975)
7. AVG Free 7.x now returns correct result for FSRTTP check. This needs Security Centre to be enabled. (425998)
8. AVG Free 8.5.x now gets detected. (428808)
9. Cisco Security Agent 6.x now gets detected. (429721)
10. FW check for AVG Internet Security 8.x now passes. (432008)
11. Norton Internet Security 2009 (16.5) now returns correct values for latest virus definition file check and FSRTTP check.
