Audience

JNTCP certification holders

Purpose

To designate recipients of the indicated level of certification

Media

Online or print

Specifications

Colors

PMS 293, black or reversed to white

Logo should always be clearly legible at whatever size is shown in print or on the web.

Maximum Size

Determined by application.

Minimum Size

Printed: .75" (10.3 mm) wide
Online: 135 pixels wide

Whenever possible, position the logo against the left or right margin of the image area. The optimal position for the logo is lower left.

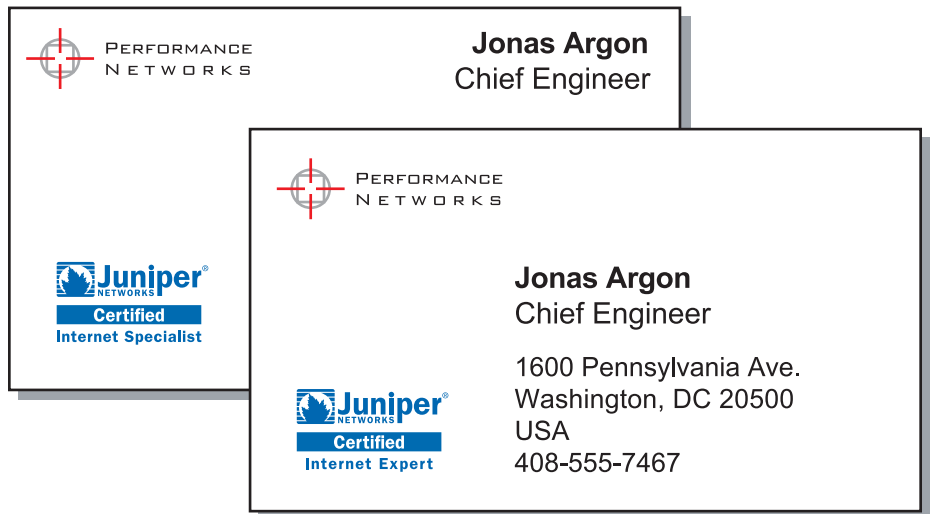

Maintain at least .125" (3 mm) distance between logo and edge of paper.

Both logos may be present in the same layout at equal size (following minimum size requirements).

Juniper Networks
Certified Internet Specialist (JNCIS)

Juniper Networks
Certified Internet Expert (JNCIE)

The Juniper Networks Technical Certification Program (JNTCP) logos have been developed to mark in a fitting manner those who have attained a high degree of technical competence in JUNOS™ software and Juniper Networks products. Certified individuals are authorized to use the appropriate logo(s) to indicate the level of certification attained. These logos are meant for personal use only. It is not permitted to use these logos in association with any business or other organization.

Print the logo using these colors:

PMS 293
