**Product Description**

Juniper Networks® single-port ADSL2/2+ Mini-PIMs for the SRX200 line can be used to provide ADSL WAN connectivity. The ADSL2/2+ Annex A (over POTS) and ADSL2/2+ Annex B (over ISDN) support ADSL, ADSL2, and ADSL2+ standards.

The ADSL2/2+ Mini-PIM has interoperability with the digital subscriber line access multiplexer (DSLAM) vendor products.

**Features and Benefits**

- Automatic detection of DSL line with DSLAM
- One RJ-11 (Annex A) or RJ-45 (Annex B) ADSL interface
- Supports ADSL, ADSL2, and ADSL2+ standards on the same interface card
- Dying Gasp support
- Single link fragmentation and interleaving (LFI) Multilink Point-to-Point Protocol (MLPPP)
- Supports ATM Adaption Layer 5 (AAL5) with constant bit rate (CBR), variable bit rate nonreal time (VBR-NRT), and unspecified bit rate (UBR) traffic types
- Support of latency modes fast and interleave
- Support for 10 permanent virtual circuits (PVCS)
### Table 1: ADSL/ADSL2/ADSL2+ Features and Benefits

<table>
<thead>
<tr>
<th>Feature</th>
<th>Feature Description</th>

</tr>
</thead>
<tbody>
<tr>
<td>ADSL/ADSL2/ADSL2+ support for Annex A, Annex B, and Annex M</td>
<td>Same module can be used in ADSL, ADSL2, and ADSL2+ environments.</td>
<td>Provides investment protection when upgrading WAN connectivity.</td>
</tr>
<tr>
<td>Automatic configuration</td>
<td>Automatically configures the ADSL line after negotiating with the DSL access multiplexer (DSLAM).</td>
<td>Minimizes configuration and support overhead.</td>
</tr>
<tr>
<td>Dying Gasp support</td>
<td>Notifies the DSLAM, in the event of power loss, that Juniper Networks SRX Series Services Gateways are about to go offline.</td>
<td>Notifies the network whenever unplanned power outages occur.</td>
</tr>
</tbody>
</table>

### Specifications

#### Supported Operating Modes
- **ANNEX A**
  - Auto
  - ANSI-DMT (ANSI T1.413)
  - ITU-DMT (G.992.1)
  - ITU-DMT-BIS (G.992.3)
  - ADSL2+ (G.992.5)
- **ANNEX B**
  - Auto
  - ITU-DMT (G.992.1)
  - ITU-DMT-BIS (G.992.3)
  - ADSL2+ (G.992.5)
  - ITU-ANNEXB-UR2
- **ANNEX M**
  - ITU-DMT-BIS (G.992.3)
  - ADSL2+ (G.992.5)

#### Supported Maximum Speed
- For ANSI discrete multitone (DMT) modulation, 8 Mbps downstream and 896 kbps upstream
- For G.992.1, 8 Mbps downstream and 1.2 Mbps upstream
- For G.992.3, 12 Mbps (Annex A) or 10 Mbps (Annex B) downstream and 1.2 Mbps upstream
- For G.992.5, 24 Mbps downstream and 1.2 Mbps upstream

#### ATM
- ATM Adaptation Layer 5 (AAL5)
- Quality of service (QoS) (CBR, VBR-NRT, and UBR)

#### Supported Maximum Transmission Unit (MTU)
- 1512 bytes

#### Supported Encapsulation
- ATM-PVC
- Ethernet-over-ATM

#### Dimensions (W x H x D) and Weight
- 3.75 x 0.8 x 5.9 in (9.5 x 2.0 x 14.5 cm)
- 0.17 lb

---

*Supported MTU is 1496 for Junos OS 9.5 release and 1512 for Junos OS releases 10.0 or higher.*

### Environmental
- Operating temperature: 32° to 104°F (0° to 40°C)
- Storage temperature: -40° to 158°F (-40° to 70°C)
- Relative humidity: 5% to 90% noncondensing

### Diagnostics
- Operation, Administration, and Maintenance (OAM) F4 far loopback test
- OAM F4 near loopback test
- OAM F5 far loopback test
- OAM F5 near loopback test

### LEDs
- Mini-PIM LEDs indicate port status with the following LED states:
  - SYNC – Green on indicates that the ADSL interface is trained; blinking means that training is in progress; off means that the interface is idle
  - TX/RX – Green blinking indicates that traffic is passing through; off means that no traffic is passing through

### Management Capabilities
- Telnet/Console/Web: Remote and local configuration, monitoring, and troubleshooting

### Standards and Compliance

#### Safety
- CAN/CSA-C22.2 No. 60950-1 Information Technology Equipment
- UL 60950-1 Information Technology Equipment
- EN 60950-1 Information Technology Equipment
- IEC 60950-1 Information Technology Equipment

#### EMC (Emissions)
- AS/NZS CISPR22 Class A
- EN-61000-3-2 Harmonic current emissions
- EN-61000-3-3 Voltage fluctuations
- FCC Part 15 Class A (USA)
- EN 55022 Class A (Europe)
- VCCI Class A (Japan)
- BSMI Class A (Taiwan)

#### Immunity
- EN 55024
- EN-61000-4-2 ESD
- EN-61000-4-3 Radiated Immunity
- EN-61000-4-4 EFT
- EN-61000-4-5 Surge
- EN-61000-4-6 Low Frequency Common Immunity
- EN-61000-4-11 Voltage Dips and Sags

#### European Telecommunications Standardization Institute (ETSI)
- ETSI EN-300386-2: Telecommunication Network Equipment Electromagnetic Compatibility Requirements

#### Telecom
- FCC Part 68/TIA-968
- IC CS-03
Standards
- ANSI T1.413 II compliant (vendor version 1)
- G992.1 (G.DMT; ADSL)
  - Annex A (POTS overlay)
  - Annex B (ISDN overlay)
  - Appendix 1 (ATM Interface – Utopia)
- G992.3 (G.DMTbis; ADSL2) + Amendment 1,2
  - Annex A (POTS overlay)
  - Annex B (ISDN overlay)
  - Annex M
  - Appendix 1 (ATM Interface – Utopia)
- G992.5 (ADSL2+) + Corrigendum 1 + Amendment 2
  - Annex A (POTS overlay)
  - Annex B (ISDN overlay)
  - Annex M
  - Appendix 1 (ATM Interface – Utopia)

ADSL Performance
- ADSL performance varies according to a variety of factors, including DSLAM line card type, DSLAM software version, training rate, line noise, and loop length.

Juniper Networks Services and Support
Juniper Networks is the leader in performance-enabling services that are designed to accelerate, extend, and optimize your high-performance network. Our services allow you to maximize operational efficiency while reducing costs and minimizing risk, achieving a faster time to value for your network. Juniper Networks ensures operational excellence by optimizing the network to maintain required levels of performance, reliability, and availability. For more details, please visit www.juniper.net/us/en/products-services.

Juniper Networks Junos Operating System Release
ADSL2/2+ Annex A and Annex B functionality is supported on the Juniper Networks SRX200 line of services gateways in Juniper Networks Junos® operating system 9.5 and higher releases.

About Juniper Networks
Juniper Networks is in the business of network innovation. From devices to data centers, from consumers to cloud providers, Juniper Networks delivers the software, silicon and systems that transform the experience and economics of networking. The company serves customers and partners worldwide. Additional information can be found at www.juniper.net.
