

エンタープライズをソフトウェア定義し自動化・オーケストレーション

ジュニパーの EX スイッチや Mist Wi-Fi を、NFX シリーズや SRX シリーズのシングルまたはデュアル WAN ゲートウェイに接続することで、セキュアな接続においてポリシー設定とプロビジョニングを集中的に、かつ自動で管理を実現

-
- The screenshot displays the 'Site Activation' progress window in the CSO Customer Portal. The window is titled 'Site Activation' and shows the status of various components. A teal arrow points to the 'Provision device' step under the 'LAN Switch' section, which is currently in progress, indicated by a blue circular arrow icon. The other steps are marked as 'SUCCESS' with green checkmarks.
- | Component | Status |
|------------------|-----------------------------------|
| Model site | SUCCESS ✓ |
| CPE | SUCCESS ✓ |
| Detect device | SUCCESS ✓ |
| Bootstrap device | SUCCESS ✓ |
| Provision device | SUCCESS ✓ |
| LAN Switch | |
| Detect device | SUCCESS ✓ |
| Bootstrap device | SUCCESS ✓ |
| Provision device | In Progress (blue circular arrow) |
- On the right side of the window, a diagram illustrates the network topology: a cloud labeled 'CSO' is connected to a green box labeled 'CPE', which is connected to a grey box labeled 'Switch'.
- The background shows the CSO Customer Portal interface with the 'Site Management' tab selected. The left sidebar contains navigation options: Site Groups, Mesh Tags, and a search bar. The right sidebar shows a table with columns 'Local Break...' and 'Version', and a 'Display' dropdown set to '50'.
