

INGENIOUS CHAMPION PROFILE

Kenneth McRae, IT Strategist, EVOTEK, Inc.

Introducing Kenneth McRae

Kenneth McRae has more than 20 years of experience across a broad range of networking and security solutions. As an IT Strategist, he is involved in pre-sales activities, infrastructure architecture, and complex network implementations on a national scale. He also works with select customers throughout the United States and the known universe.

Kenneth has architected, designed, engineered, deployed, and supported complex networking projects for global enterprises, service providers, cloud providers, Fortune 500 and 1000 companies. EVOTEK is a leading integrator of IT solutions, infrastructure, and services for the cloud ecosystem (public, private, and hybrid), service providers, and enterprise customers. The company is a newly minted Juniper Networks Elite Partner, and is a rising star within Juniper's partner community.

Career Path

Kenneth started his career as a network engineer building and supporting LAN and WAN environments for fast growing technology companies, which included the U.S. Government, a national internet service provider, a value added reseller, and various Fortune 1000 companies. He was responsible for architecting and implementing one of the first Junos powered DDoS mitigation as a service infrastructures on a global scale. He joined EVOTEK in 2017 as an IT Strategist and has been instrumental in the company's effort to become a Juniper Elite partner. His expertise now covers enterprise LAN/WAN, data centers, ISP infrastructures, security, application delivery solution, and optical services. His knowledge of and experience with Juniper has enabled him to help EVOTEK's customers solve complex business challenges through the use of various Juniper technologies.

Engaging with Juniper

Kenneth first became familiar with Juniper while employed as a network architect for a national ISP, working with the Juniper Networks® ScreenOS firewalls, M/MX series routers and MAG SSL VPN gateways. Kenneth has attained numerous Juniper certifications, including JNCIP-SP, JNCIS-SP and is actively pursuing the JNCIE-SP certification as well.

Proud to be an Ingenious Champion

Kenneth started down the Ingenious Champion track to be better position himself to discuss, deploy and support Junos OS and Juniper solutions. The program has given him a better understanding of Juniper's product capabilities and the same level of access to product information as Juniper's own engineers. Having this knowledge and level of access has made Kenneth more confident and effective in building networks with Juniper solutions that meet customer business requirements. Kenneth

recommends that any engineer who meets the requirements participate in the program. EVOTEK currently has two Ingenious Champions on staff, including Kenneth.

On a Personal Note

Kenneth loves to spend time with his family. In his spare time, he enjoys traveling, saltwater aquariums, learning about ancient cultures, and trading stocks.

Quotes and Testimonials

“Looking for the proverbial needle in a haystack? Not a problem for Evotek’s Kenneth McRae. Ken uses his breadth of experience, coupled with a keen intellect to methodically analyze highly complex service provider and enterprise networks, isolating problems with speed and confidence. And with this approach, it is no wonder that customers have likened him to a ‘network surgeon’!”

Michael McConnell, Senior Systems Engineer, Juniper Networks

About Juniper Networks

Juniper Networks brings simplicity to networking with products, solutions and services that connect the world. Through engineering innovation, we remove the constraints and complexities of networking in the cloud era to solve the toughest challenges our customers and partners face daily. At Juniper Networks, we believe that the network is a resource for sharing knowledge and human advancement that changes the world. We are committed to imagining groundbreaking ways to deliver automated, scalable and secure networks to move at the speed of business.
