

Ingenious Champion Profile

Nick Norman – Senior Network Engineer, CentraComm

Juniper Champion

Introducing Nick Norman

Nick has an Associate Degree in Applied Sciences with a focus on Network Security. His education spanned from networking fundamentals to advanced routing and network defense. He has worked for CentraComm, an Operate and Juniper Elite partner, as a senior network engineer for over eight years. As an Operate partner, CentraComm manages customer requests from basic policies/NAT configuration through redesigning the network to support multiple failover scenarios.

Career Path

Since CentraComm provides an extensive number of offerings such as security, network and professional services, Nick has been able to grow his skill set by working in different parts of the business. He has designed and deployed more than 400 Juniper Networks EX Series Ethernet Switches, including in CentraComm's own data center. He also redesigned the CentraComm network edge, which peers with multiple ISPs. This has benefited CentraComm by reducing costs while adding carrier and path diversity to the network.

Engaging with Juniper

Nick is a member of Juniper Networks' Partner Technical Advisory Board (PTAB) and participates with Juniper's document review team for content focused on the enterprise. He enjoys collaborating with other members of PTAB, as diverse job functions of the members provide insight into all levels of an organization.

Proud to be an Ingenious Champion

CentraComm was introduced to the Champion Program as part of the Partner Program and later adopted as an internal training and education tool. Nick has obtained many Juniper and industry certifications leading to the Ingenious Champion level for both security and enterprise. He is CentraComm's only engineer to date to take and pass JNCIP-ENT and JNCIP-SEC in the same day.

On a Personal Note

In his spare time, Nick enjoys woodworking. He is also an avid downhill skier and cyclist. He and his wife are expecting their first child in March of 2016.

Quotes and Testimonials

"I've had the privilege of working with Nick at CentraComm for over a year and he is a go to engineer. He has the ability to take on complex customer designs and configurations providing solutions that his customers need. He's truly a trusted advisor to his customers. It's great to work with such a talented engineer."

Jason Humphreys, Systems Engineer, Juniper Networks, Inc
