

# JUNOS GENIUS

## Product Overview

*Junos Genius is a continuous learning platform that provides certification preparation resources and e-learning courses developed by Juniper technology experts covering automation, routing, switching, security, and more! For more information, visit [www.junosgenius.net](http://www.junosgenius.net).*

## Product Description

Junos® Genius is a Juniper Networks® Education Services offering designed to help you master Juniper technologies. Once you create a Junos Genius account, you will have access to all available content on both the Web platform and the application, including:

- Juniper Networks Certification Program (JNCP) associate, specialist, and professional-level certification practice tests
- Juniper Learning Bytes videos that provide short, concise tips and instructions on specific Juniper technology features and functions
- Certification preparation videos
- E-learning courses that provide in-depth learning on key networking topics
- Hardware overview and deployment courses that provide a summary of Juniper hardware platforms and the procedures required to install and maintain them
- Day One books written by Juniper subject matter experts

## Features and Benefits

Junos Genius provides a number of compelling features and benefits, including the following:

- Access to 65-item practice tests written by subject matter experts and designed to help you prepare for multiple associate, specialist, and professional-level JNCP certification exams
- Access to the platform at your convenience, anytime and anywhere
- Ability to use any device: smartphone, tablet, or any other mobile device, as well as your desktop or laptop
- Access to ongoing training opportunities, as new content is regularly added
- Access to Learning Bytes videos that will help you become more proficient at managing your network of Juniper hardware and software
- Unlimited access to all hardware overview and deployment courses
- Ability to resume courses where you left off with no interruptions
- Ability to view content offline...simply download what you need and view it when convenient

## About Juniper Networks

Juniper Networks brings simplicity to networking with products, solutions and services that connect the world. Through engineering innovation, we remove the constraints and complexities of networking in the cloud era to solve the toughest challenges our customers and partners face daily. At Juniper Networks, we believe that the network is a resource for sharing knowledge and human advancement that changes the world. We are committed to imagining groundbreaking ways to deliver automated, scalable and secure networks to move at the speed of business.
