

Managed SD-LAN for Enterprise Business

Go with the Leader in Wired and Wireless with Juniper Networks

SD-LAN as a Managed Service

Enterprises are under pressure to securely deploy and operate branch networks that can handle unexpected increases in applications, users, devices, and use of cloud services. Many organizations also find themselves striving to reduce their operational burden on a limited IT staff while attempting to optimize revenue-impacting operations.

With a trusted partner deploying Juniper Networks Wired and Wireless solutions as part of a managed offering, companies can take advantage of the following:

Industry Leading Technology

- Juniper recognized as the leader in Gartner's 2021 Magic Quadrant for Wired & Wireless LAN Access Infrastructure
- Named furthest in vision and highest in execution
- Gartner leader in Indoor Location Services for 2022

Expert-level Support

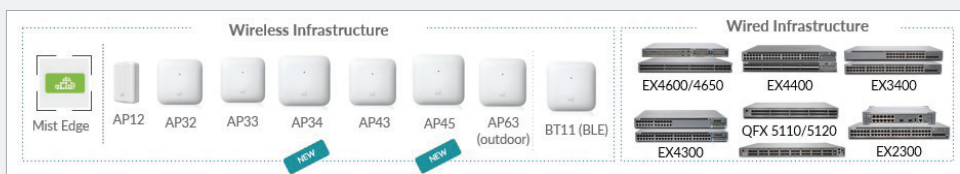

- A true extension of your team with certified Juniper Networks and Mist specialists
- Flexible offerings for all your Day 0, 1, and 2 operations
- Available for DIY, hybrid, or fully managed SD-LAN deployments depending on customer requirements

Optimized Experiences

- Ensure the best user, device and IoT experience with Juniper Wireless Access Points
- Simplify operations and device troubleshooting with proactive insights
- Reduce space usage by upwards of 50% and power consumption by two-thirds with Juniper EX Series switches

Best Wi-Fi and Bluetooth LE performance

In addition to delivering the best 802.11ax (Wi-Fi 6) and 802.11ac Wi-Fi range and performance, Juniper APs incorporate a patented dynamic vBLE 16 element antenna array to deliver the industry's most accurate and scalable location services.

Start benefiting from Juniper Wired & Wireless solutions today!
