Are you ready for what's next?

Smart grid

- + More sensors to anticipate and remediate problems
- + Realtime visibility of assets and simulated power flows
- + Self healing power distribution systems

Connected community

- + Improved quality of life or interconnected members
- + Telehealth to manage medical conditions from home
- + Students analyze experiment and implement remotely

Juniper's intelligent network will get you there.

Al-driven, secure and self healing connectivity

Engineered for simplicity and investment protection
