

## interfaces

---

**Syntax**    interfaces {  
              *interface-name* {  
                  scheduler-map *map-name*;  
                  unit *logical-unit-number* {  
                      forwarding-class *class-name*;  
                      classifiers {  
                          (dscp | ieee-802.1 | inet-precedence) (*classifier-name* | default);  
                      }  
                  }  
              }  
          }

**Hierarchy Level**    [edit class-of-service]

**Release Information**    Statement introduced in JUNOS Release 9.0 for EX-series switches.

**Description**    Configure interface-specific CoS properties for incoming packets.

**Options**    *interface-name* —Name of the interface.

The statements are explained separately.

**Required Privilege Level**    routing—To view this statement in the configuration.  
                                  routing-control—To add this statement to the configuration.
