

loss-priority

Syntax	loss-priority <i>priority</i> ;
Hierarchy Level	[edit ethernet-switching-options analyzer <i>name</i>]
Release Information	Statement introduced in JUNOS Release 9.0 for EX-series switches.
Description	Configure a loss priority for mirrored packets. By default, the switch applies a lower priority to mirrored data than to regular port-to-port data—mirrored traffic is dropped in preference for regular traffic when capacity is exceeded. For port mirroring configurations with output to an analyzer VLAN, set the loss priority to high.
Default	Low
Options	<i>priority</i> —The value for priority can be low or high. Default: low
Required Privilege Level	routing—To view this statement in the configuration.routing-control—To add this statement to the configuration.
