

Monitoring Interfaces That Have CoS Components

Purpose Use the monitoring functionality to display details about the physical and logical interfaces and the CoS components assigned to them.

Action To monitor interfaces that have CoS components in the J-Web interface, select **Monitor > Class of Service > Interface Association**.

To monitor interfaces that have CoS components in the CLI, enter the following command:

```
show class-of-service interface interface
```

Meaning Table 1 on page 1 summarizes key output fields for CoS interfaces.

Table 1: Summary of Key CoS Interfaces Output Fields

Field	Values	Additional Information
Interface	Name of a physical interface to which CoS components are assigned.	To display names of logical interfaces configured on this physical interface, click the plus sign (+).
Scheduler Map	Name of the scheduler map associated with this interface.	
Queues Supported	Number of queues you can configure on the interface.	
Queues in Use	Number of queues currently configured.	
Logical Interface	Name of a logical interface on the physical interface to which CoS components are assigned.	
Object	Category of an object—for example, classifier , scheduler-map , or rewrite .	
Name	Name that you have given to an object—for example, ba-classifier .	
Type	Type of an object—for example, dscp for a classifier.	
Index	Index of this interface or the internal index of a specific object.
