Hierarchy Level [edit]

Release Information Statement introduced in JUNOS Release 9.0 for EX-series switches.
Option **multi-destination** introduced in JUNOS Release 9.5 for EX-series switches.

Description Configure class-of-service parameters on EX-series switches.

The remaining statements are explained separately.

Default If you do not configure any CoS features, the default CoS settings are used.

Required Privilege Level routing—To view this statement in the configuration.
routing-control—To add this statement to the configuration.
