

## classifier

---

**Syntax** classifier {  
    per-unit-scheduler {  
        [Unresolved xref] class-name {  
            loss-priority (high | low);  
        }  
    }  
}

**Hierarchy Level** [edit interfaces *interface-name* *gigether-options* ethernet-switch-profile  
    ethernet-policer-profile output-priority-map]

**Release Information** Statement introduced before JUNOS Release 7.4.

**Description** For Gigabit Ethernet IQ and 10-Gigabit Ethernet interfaces only, define the classifier for the output priority map to be applied to outgoing frames on this interface.

The statements are explained separately.

**Usage Guidelines** See Configuring Gigabit Ethernet Policers.

**Required Privilege Level** interface—To view this statement in the configuration.  
    interface-control—To add this statement to the configuration.

**Related Topics** input-priority-map
