Hierarchy Level [edit ethernet-switching-options analyzer *name*]

Release Information Statement introduced in JUNOS Release 9.0 for EX-series switches.

Description The definition of traffic to be mirrored in a port mirroring configuration—can be a combination of traffic entering or exiting specific ports, and traffic entering a VLAN in an EX 3200 or EX 4200 switch or exiting a VLAN in an EX 8200 series switch.

The statements are explained separately.

Default No default.

Required Privilege Level routing—To view this statement in the configuration.
 routing-control—To add this statement to the configuration.
