

interfaces

Syntax

```
interfaces {
  aex {
    aggregated-ether-options {
      lacp mode {
        periodic interval;
      }
    }
  }
  ge-chassis/slot/port {
    description text;
    ether-options {
      802.3ad aex;
      auto-negotiation;
      flow-control;
      link-mode mode;
      speed (speed | auto-negotiation) ;
    }
    mtu bytes;
    unit logical-unit-number {
      ( family ccc; |
        family ethernet-switching {
          filter input filter-name;
          filter output filter-name;
          native-vlan-id vlan-id;
          port-mode mode;
          vlan {
            members [ ( all | names | vlan-ids ) ];
          }
        } |
        family mpls; )
      vlan-id vlan-id-number;
    }
    vlan-tagging;
  }
}
```

Hierarchy Level [edit]

Release Information Statement introduced in JUNOS Release 9.0 for EX-series switches.

Description Configure interfaces. Most standard JUNOS configuration statements are available in the JUNOS software for EX-series switches. This topic lists JUNOS statements that you commonly use when configuring EX-series switches as well as statements added to support EX-series switches only. See the *JUNOS Software Network Interfaces Configuration Guide* at <http://www.juniper.net/techpubs/software/junos/junos95/index.html> for additional information.

Options aex—Configure an aggregated Ethernet interface.

ge-chassis/slot/port—Configure a Gigabit Ethernet interface.

The remaining statements are explained separately.

Required Privilege Level	interface—To view this statement in the configuration. interface-control—To add this statement to the configuration.
