 }

Hierarchy Level [edit ethernet-switching-options analyzer *name*]

Release Information Statement introduced in JUNOS Release 9.0 for EX-series switches.

Description Configure the destination for mirrored traffic, either an interface on the switch, for local monitoring, or a VLAN, for remote monitoring.

The statements are explained separately.

Default No default.

Required Privilege Level routing—To view this statement in the configuration.
 routing-control—To add this statement to the configuration.
