

Configuring the ANCP Tracing Flags

By default, only important events are logged. You can specify which trace operations are logged by including specific tracing flags. The following table describes the flags that you can include.

Flag	Description
all	Trace all operations
config	Trace configuration events
cos	Trace class-of-service events
general	Trace general flow.
packet	Trace ANCP packet transmit and receive events
process	Trace process internal events
protocol	Trace protocol operations
restart	Trace process restart flow
routing-socket	Trace routing socket events
session	Trace connection events and sessions
startup	Trace ANCP startup events and flow
subscriber	Trace subscriber events
timer	Trace timer processing

To configure the flags for the events to be logged:

- Configure the flags.

```
[edit protocols ancp traceoptions]  
user@host# set flag restart
```
