

## accounting-stop-on-failure

---

<b>Syntax</b>	accounting-stop-on-failure;
<b>Hierarchy Level</b>	[edit access profile <i>profile-name</i> accounting]
<b>Release Information</b>	Statement introduced in JUNOS Release 9.0 for EX Series switches.
<b>Description</b>	Configure authentication order for authentication, authorization, and accounting (AAA) services to send an Acct-Stop message if a supplicant fails AAA authorization, but the RADIUS server grants access. For example, a supplicant might fail AAA authentication due to an internal error such as a timeout.
<b>Default</b>	Not enabled
<b>Required Privilege Level</b>	admin—To view this statement in the configuration. admin-control—To add this statement to the configuration.
