

## ignore

---

**Syntax**    ignore {  
              framed-ip-netmask;  
              input-filter;  
              logical-system:routing-instance;  
              output-filter;  
              }

**Hierarchy Level**    [edit access profile *profile-name* radius attributes]

**Release Information**    Statement introduced in JUNOS Release 9.1.

**Description**    Configure the router to ignore the specified attributes in RADIUS Access-Accept messages. By default, the router processes the attributes it receives from the external server.

**Options**    framed-ip-netmask—Framed-IP-Netmask (RADIUS attribute 9).

              input-filter—Ingress-Policy-Name (VSA 26-10).

              logical-system:routing-instance—Virtual-Router (VSA 26-1).

              output-filter—Egress-Policy-Name (VSA 26-11).

**Required Privilege Level**    admin—To view this statement in the configuration.  
                                  admin-control—To add this statement to the configuration.
