

location

Syntax

```
location {  
    elin number;  
    civic-based {  
        what number;  
        country-code code;  
        ca-type{  
            number {  
                ca-value value;  
            }  
        }  
    }  
}
```

Hierarchy Level [edit protocols lldp-med interface (all | *interface-name*)]

Release Information Statement introduced in JUNOS Release 9.0 for EX Series switches.

Description For Link Layer Discovery Protocol–Media Endpoint Discovery (LLDP-MED), configure the location information. Location information is advertised from the switch to the MED. This information is used during emergency calls to identify the location of the MED.

The statements are explained separately.

Default Disabled.

Required Privilege Level routing—To view this statement in the configuration.
routing-control—To add this statement to the configuration.
