

ipv6 http port

Syntax `ipv6 http port portNumber`
`no ipv6 http port`

Release Information Command introduced in JUNOS Release 10.1.0.

Description Specifies the port on which the HTTP local server receives connection attempts for IPv6. The **no** version restores the default port number.

NOTE: Port numbers from 1 to 1024 are known as reserved ports. We recommend that you specify a port number that does not belong to this range.

Options ■ *portNumber*—Number of the port, in the range 0–65535; the default is port 80

Mode Global Configuration
