

## set ip interface-profile

---

**Syntax**    set ip interface-profile *profileName*  
              no set ip interface-profile

**Release Information**    Command introduced before JUNOS Release 7.1.0.

**Description**    Specifies a dynamic IP interface profile that is used in the route map. The **no** version removes the interface profile from the route map.

**Options**    ■    *profileName*—Name of the dynamic profile

**Mode**    Route Map Configuration
