

secure l2tp policy-list

Syntax [no] secure l2tp policy-list *policyName*

Release Information Command introduced before JUNOS Release 7.1.0.

Description Creates or modifies a secure L2TP policy list. Enters Policy List Configuration mode, enabling you to specify the parameters of the secure L2TP policy list. If you enter Policy List Configuration mode and then type **exit** without specifying any parameters, the router creates a policy list with a mirror disable rule. Attaching this policy list to an interface results in no packet mirroring. The **no** version removes the specified policy list.

Options ■ *policyName*—Name of the secure L2TP policy list

Mode Global Configuration
