

yellow-mark

Syntax	[no] yellow-mark <i>colorMarkValue</i>
Release Information	Command introduced in JUNOS Release 7.2.0.
Description	Applies ToS mark value to yellow packets, which can be from policy actions, earlier policies, or rate-limit hierarchies. The no version deletes the ToS mark value.
Options	■ <i>colorMarkValue</i> —Value of the ToS mark to be applied, in the range 0–255
Mode	Color Mark Profile Configuration
Related Topics	■ Hierarchical Rate Limits Overview ■ Policy Rule Precedence
