

Specifying Values for Service Parameters in Subscriptions

On the Subscriptions page, the Service Parameters column lists the parameters you can specify for this subscription. Subscriptions inherit values for service parameters from subscriptions of parent subscribers. If the parameter is locked by the parent subscriber, the value appears dimmed in the portal, and you cannot modify the value. If the parameter is not locked by a parent subscriber, you can modify the value.

To specify a value for a parameter:

1. Start at the subscriber's Subscriptions page.
2. Locate the parameter in the Service Parameters column.
3. Provide a value for this parameter.
4. (Optional) Select **Locked** to prevent managers of subordinate subscribers from changing this value.
5. If you want to revert to the original values, click **Reset**.
6. Click **Apply**.
