

Accessing Enterprise Service Portals

When viewing the enterprise service portals, take care to open only one browser window yourself. The portals automatically open pop-up windows for various operations. If you open more than one browser window yourself, the information in the original window may not be updated correctly when you complete an operation in a pop-up window.

To access an enterprise service portal:

1. Enter the URL of the portal in your Web browser, and press Enter. For example, to access Enterprise Manager Portal, type:

`http://192.0.2.1:8080/entmgr`

The enterprise service portal displays the login page.

2. Select your service provider from the Retailer menu.
3. Enter your username in the Login ID field and your password in the Password field.

The enterprise service portal displays your Welcome page. On the left of the page is a navigation pane for the objects in the service provider's directory over which you have control. Your login identity is the root of this navigation pane.
