

## Updating Data on a Juniper Networks Database with the C-Web Interface

---

After you bring a Juniper Networks database online after some period of inaccessibility, update the database with any database changes that occurred while the database was offline.

To update data in a neighbor in a community of Juniper Networks databases:

1. Click **Manage > Request > System > LDAP > Community > Force Update**.

The Force Update page appears.

2. In the Neighbor box, enter the name of the neighbor to be updated.
