

Securing Communications Between the Juniper Networks Database and SRC Components with the C-Web Interface

Communications between SRC components and the Juniper Networks database use password authentication. You can change the default passwords for the following software components to ensure that communications are secure.

- License server
- NIC
- SAE
- SRC CLI
- Configuration for SRC components other than the CLI and the NIC

To change the administrative password for the Juniper Networks database:

1. Click **Manage > Request > System > LDAP > Change Admin Password**.

The Change Admin Password page appears.

2. In the New Password box, enter the new password.

To change a component password:

1. Click **Manage > Request > System > LDAP > Change Component Password**.

The Change Component Password page appears.

2. Enter information as described in the Help text in the main pane, and click **Apply**.
