

## Configuring Mark Actions (C-Web Interface)

---

Use this action to mark packets. You can configure mark actions for JUNOS<sup>e</sup> and PCMM policy rules.

To configure a mark action:

1. In the side pane, select a JUNOS<sup>e</sup> or PCMM policy rule.
2. From the Create new list, select **Mark**. Type a name for the action, and click **OK**.
3. Enter information as described in the Help text in the main pane, and click **Apply**.
4. Expand the mark action, and select **Info**.
5. Click **Create**, enter information as described in the Help text in the main pane, and click **Apply**.
