

Configuring a Usage Metric for Service Accounts

You configure VTA service accounts in the Database Engine Service section of the Database Engine Processor configuration page. For example:

Database Engine Service

QuotaLocal	Delete
QuotaInternet	Delete
New Database Engine Service	<input type="text"/>
Create	

You can create, delete, or modify accounts:

- To add an account, enter a name for the account in the New Database Engine Service field, and click **Create**.
- To delete an account, click **Delete** next to the account that you want to delete.
- To modify an account, select the account that you want to modify.

If you create or modify an account, the account configuration screen appears.

- ▶ Home
- ▶ Dir Connection
- ▼ Configuration
 - ▶ Create
 - ▶ Edit
 - ▶ Load
 - ▶ Commit
 - ▶ Import
 - ▶ Export
