

## Disabling Interactions Between the SAE and JUNOS Routing Platforms

---

To disable the SRC software process, enter the following command:

```
root@ui1#set system processes service-deployment disable  
root@ui1# commit
```

When you disable the SRC software process, it is still available on the JUNOS routing platform.

To reenable the SRC software process, enter the following command:

```
root@ui1# delete system processes service-deployment disable  
root@ui1# commit
```

The SRC software process attempts to reconnect the JUNOS routing platform to the SAE.
