

Viewing the State of JUNOS_e Device Drivers (C-Web Interface)

Purpose If the log files indicate a problem with a specific driver, review the configuration of the associated with the JUNOS_e router driver with the C-Web interface.

Action 1. Click **Monitor > SAE > Drivers**.

The Drivers pane appears.

2. Enter information as described in the Help text in the main pane, and click **OK**.

The Drivers pane displays information about the JUNOS_e device driver.
