

Viewing Information About Threads

Purpose View information about the threads and their priority on the SAE.

Action 1. Click **Monitor > SAE > Threads**.

The Threads pane appears.

The screenshot shows the Juniper Networks configuration interface. The top navigation bar includes 'Monitor', 'Configure', 'Diagnose', and 'Manage'. The 'Monitor' tab is selected, and the left sidebar shows a tree view with 'SAE' expanded. The main content area displays the 'Threads' pane. It features a 'Slot' input box with a value of '0'. To the right of the input box is a text area that reads: 'Display SAE information for a specified slot. Value: Currently the chassis has only one slot. The valid value is 0. Default: 0'. Below the input box are 'OK' and 'Reset' buttons. The bottom of the interface shows the copyright notice 'Copyright © 2007, Juniper Networks, Inc. All Rights Reserved. Trademark Notice. Privacy.' and the Juniper logo.

2. In the Slot box, enter the number of the slot for which you want to display thread information.
3. Click **OK**.

The Threads pane displays information about threads.
