

Viewing SNMP Information for Routers and Devices with the CLI

Purpose View SNMP information for routers and devices that the SAE manages. You can view information for all routers and devices, or for specific ones.

Action To view SNMP information for routers and devices that the SAE is managing:

```
user@host> show sae statistics device
```

To view information for a particular router, specify all or part of the VR name. For JUNOS router drivers and PCMM drivers, use the format `default@routerName`.

```
user@host> show sae statistics device filter filter
```

To view only the RADIUS clients that were accessible by IP address and port number:

```
user@host> show sae statistics device brief
```
