

Viewing Information About Subscriber Sessions by Service Name

Purpose View information about subscriber sessions by service name.

Action 1. Click **Monitor > SAE > Subscribers > Service Name**.

The Subscribers/Service Name pane appears.

The screenshot shows the Juniper SAE configuration interface. On the left is a navigation menu with categories: ACP, CLI, Component, Date, Disk, Interfaces..., Iptables..., JPS, NIC, NTP, Redirect Server, Route..., SAE (highlighted), Security, and System. The main area is titled 'Subscribers / Service Name'. It contains five configuration fields: 'Service Name' (text box), 'Maximum Results' (text box), 'Secret' (checkbox), 'Slot' (text box), and 'Style' (dropdown menu). Each field has a description and default value. At the bottom are 'OK' and 'Reset' buttons. The footer shows 'Copyright © 2007, Juniper Networks, Inc.' and the Juniper logo.

Field	Description	Value	Legal range	Default
Service Name	Service name of subscriber sessions.	All or part of the service name		No value
Maximum Results	Number of results to be displayed.		1..INF	25
Secret	Display subscriber sessions and service sessions for hidden services.	<input type="checkbox"/>		Disabled
Slot	Display SAE information for a specified slot.		Currently the chassis has only one slot. The valid value is 0.	0
Style	Output style			Detail

Choices:
brief: Display only subscriber sessions
terse: Display subscriber session ID, login name, and IP address
Default: Detail

2. In the Service Name box, enter a full or partial service name for which you want to display information, or leave the box blank to display all subscriber sessions.
3. In the Maximum Results box, enter the maximum number of results that you want to receive.
4. Select the **Secret** check box to set a flag indicating that subscriptions and service sessions from hidden services are displayed.
5. In the Slot box, enter the number of the slot for which you want to display subscriber session information.
6. Select an output style from the Style list.
7. Click **OK**.

The Subscribers/Service Name pane displays information about subscriber sessions.
