

Getting Help in the C-Web Interface

The C-Web interface provides Help for each option. Each field description contains information about the definition, format, and valid range of the data in the field.

By default, the Help is enabled to display information for any task. To minimize the text on a pane, you can disable the Help display.

The Help settings are stored on a per-user basis. If you disable Help from displaying, your Web browser stores a cookie; the next time you log in, the Help is disabled.

Enabling Help

To enable Help to display information:

- Click **Preferences > Help: On**.

Disabling Help

To disable Help from displaying information:

- Click **Preferences > Help: Off**.
