

## Defining Parameters for the SRC Software

You can define parameters for different items in the SRC software. Depending on the item, you can define parameters with the SRC CLI, the C-Web interface, and with LDAP clients, with SRC applications, or with other applications through SRC APIs.

Table 1 on page 1 shows the items for which you can define parameters and the methods you can use to define parameters for these items. See the documentation specified in the table for information about how to define parameters for each item.

**Table 1: Parameter Definitions**

Items That Contain Parameter Definitions	Methods by Which You Can Define the Parameter	Information That Describes How to Define Parameters
Global parameters, which you define in the runtime parameters in the policy repository folder.	SRC CLI C-Web interface	<i>Overview of Global and Local Parameters</i>
Local parameters, which you define in policy groups.	SRC CLI C-Web interface	<i>Overview of Global and Local Parameters</i>
System parameters, which are contained in the runtime parameters folder in the policy repository folder.	Subscriber sessions SRC network-values obtained when the SAE starts managing an interface	Parameter Types
Scopes in order of the precedence	SRC CLI C-Web interface	<i>Setting Parameter Values for Services (SRC CLI)</i> Overview of Restricting Simultaneous Activation of Services
Services in order of the precedence associated with the scopes associated with the service	SRC CLI C-Web interface	<i>Setting Parameter Values for Services (SRC CLI)</i> Overview of Restricting and Customizing Services for Subscribers

**Table 1: Parameter Definitions** (continued)

Items That Contain Parameter Definitions	Methods by Which You Can Define the Parameter	Information That Describes How to Define Parameters
Subscribers	SRC CLI	Overview of Configuring Subscribers and Subscriptions
	C-Web interface	Adding Subscribers (SRC CLI)
	LDAP client if an external directory contains subscriber data	Adding Subscribers (C-Web Interface)
	Enterprise service portals	
Subscriptions	SRC CLI	Configuring Subscriptions (SRC CLI)
	C-Web interface	Configuring TCP Conditions (C-Web Interface)
	Residential portal or enterprise service portal	<i>SRC-PE Sample Applications Guide</i> Creating a Subscription to BoD Services
	Dynamic Service Activator	Overview of Dynamic Service Activator SAE CORBA remote API documentation on the Juniper Networks Web site at
	SAE's CORBA remote API	<a href="http://www.juniper.net/techpubs/software/management/src/api-index.html">http://www.juniper.net/techpubs/software/management/src/api-index.html</a>
Sessions	Residential portal	<i>SRC-PE Sample Applications Guide</i> Overview of Dynamic Service Activator
	Dynamic Service Activator	SAE CORBA remote API documentation on the Juniper Networks Web site at
	SAE's CORBA remote interface	<a href="http://www.juniper.net/techpubs/software/management/src/api-index.html">http://www.juniper.net/techpubs/software/management/src/api-index.html</a>
