

## Exiting from Configuration Mode

---

To exit configuration mode:

- Use the `exit configuration-mode` command from any level.

or

Use the `exit` command from the top level.

For example:

```
[edit shared sae configuration time-based-policies]
user@host# exit configuration-mode
Exiting configuration mode.
user@host>
```

```
[edit]
user@host# exit
Exiting configuration mode.
user@host>
```

If you try to exit from configuration mode by using the `exit` command and the configuration contains changes that have not been committed, you see a message:

```
[edit shared sae configuration time-based-policies]
user@host# exit configuration-mode
Exiting configuration mode.
The configuration has been changed but not committed.

user@host>
```
