

## Reviewing the Information Collected from a JUNOS Routing Platform

---

**Purpose** Review information that the network publisher collects from a JUNOS routing platform.

**Action** 1. Enable an output file to collect information from all routers or for a specific router.

```
[edit slot 0 network-publisher routers test-mode]  
user@host# set enable-file-output
```

```
[edit slot 0 network-publisher routers router my-router test-mode]  
user@host# set enable-file-output
```

2. Run the network publisher.

```
user@host> request network-publisher execute
```

3. FTP the file from the C-series Controller to another system; then open the file on the remote system and examine the file content.
