

Viewing Information About the SRC CLI

Purpose View information about the current user's command completion setting and editing level for the SRC CLI.

Action Click **Monitor > CLI**.

The CLI pane appears and displays the information about the CLI.

The screenshot shows the Juniper CLI configuration interface. At the top, there is a navigation bar with tabs: Monitor (highlighted), Configure, Diagnose, and Manage. To the right of the tabs, it says "Logged in as: admin" and provides links for Refresh, Preferences, About, and Logout. On the left side, there is a vertical menu with various system components: ACP, CLI (highlighted), Component, Date, Disk, Interfaces..., Iptables..., JPS, NIC, NTP, Redirect Server, Route..., SAE, Security, and System. The main content area on the right displays the CLI configuration details: "CLI complete-on-space set to off" and "CLI editing level is: expert". At the bottom of the page, there is a footer with copyright information: "Copyright © 2007, Juniper Networks, Inc. All Rights Reserved. Trademark Notice, Privacy," and the Juniper logo with the tagline "Juniper Your Net."
