

C-Web Interface Overview

The C-Web interface lets you monitor, configure, troubleshoot, and manage the SRC components and C-series Controllers.

You can perform the following tasks with the C-Web interface:

- **Monitoring**—Display the current configuration and information about the system and SRC components.
- **Configuring**—View the current configurations at a glance and configure SRC components.
- **Diagnosing**—Test SRC component settings.
- **Managing**—Manage files and licenses, enable and disable components, clear certificates and lists, upgrade the software, and reboot the system.
