

Managing Subscriber Accounts with the Administrator Portal

We provide a sample administrator portal for the Quota VTA that manages VTA subscriber accounts. You can use this portal to demonstrate and test the SRC-VTA. In a production environment, you must integrate your customer interface with these portals. For more information, contact Juniper Networks Professional Services.

The sample portal is designed to be used with the Quota configuration example in the sample data. As a result, the portals expect the Periodic and Bought accounts.
