

Reviewing SRC Port Settings for SRC Applications

If you use firewall software within your internal network, ensure that firewall settings allow traffic to and from the following ports for the applications that you implement in your environment. Table 1 on page 1 lists the default port settings for SRC applications.

Table 1: Default Port Settings for SRC Applications

Component	Type of Communication	Default Port Setting
Threat Mitigation Application	Oracle (if used)	TCP 1521
	PostgreSQL (if used)	TCP 5432
	MySQL (if used)	TCP 3306
SRC Volume-Tracking Application (SRC-VTA)	MySQL (if used)	TCP 3306
