

Configuration Statements for the Juniper Networks Database (SRC CLI)

Use the following configuration statements to configure the Juniper Networks database at the [edit] hierarchy level:

```
system ldap server {
  stand-alone;
}
system ldap server community {
  role (primary | secondary);
  primary-neighbors [primary-neighbor...];
  secondary-neighbors [secondary-neighbor...];
}
system ldap server security {
  (enable | strict);
}
```

The `strict` statement is supported only on C-series Controllers.
